PROFESSIONAL SUMMARY

Data Scientist and Business Analytics graduate student with experience developing Python-based data analysis pipelines, statistical models, and interactive visualization tools. Skilled in Bayesian modeling concepts, machine learning, and data mining for research-driven applications. Strong background in building end-to-end analytical workflows, performing statistical analysis, and developing researcher-friendly dashboards.

TECHNICAL SKILLS

Programming: Python, SQL, Pandas, NumPy, SciPy, Jupyter Notebook

Statistical Modeling: Bayesian Modeling, Regression, GLM, Hypothesis Testing, Statistical Inference

Machine Learning: Classification, Clustering, Feature Engineering, Model Evaluation

Data Pipelines: ETL, Data Processing, Data Mining, Scientific Data Analysis

Visualization: Matplotlib, Seaborn, Plotly, Streamlit Dashboards

Tools: Git, GitHub, VS Code, FastAPI, AWS (S3)

PROJECT EXPERIENCE

Python-Based Statistical Analysis Pipeline

- Built end-to-end Python pipeline for structured dataset analysis
- Implemented preprocessing, feature engineering, and modeling
- Applied statistical analysis and hypothesis testing
- Generated interactive visualizations for data exploration

Bayesian-Inspired Predictive Modeling Framework

- Implemented probabilistic modeling workflow for prediction
- Applied regression and statistical inference methods
- Evaluated model uncertainty and performance metrics
- Generated visualizations for model interpretation

Interactive Research Visualization Dashboard

- Developed Streamlit-based GUI for data exploration
- Built interactive plots for statistical analysis
- Enabled real-time visualization of model outputs
- Designed researcher-friendly interface

PROFESSIONAL EXPERIENCE

Quality Assurance Intern — Laurus Labs

- Conducted structured data validation and statistical checks
- Analyzed datasets for anomalies and deviations

- Supported data-driven quality improvement processes
- Generated reports and documentation

EDUCATION

Stevens Institute of Technology

Master of Business Analytics & Artificial Intelligence — May 2026

GITAM Deemed University

Bachelor's Degree
