PROFESSIONAL SUMMARY

Business Analytics and Artificial Intelligence graduate with experience in business analysis, process documentation, operational workflows, reporting, and AI-driven analytical systems. Skilled in requirement gathering, workflow optimization, SQL, Python, data analysis, and dashboard reporting. Experienced in developing structured analytical workflows, documenting operational requirements, supporting decision-making processes, and collaborating on data-driven solutions.

TECHNICAL SKILLS

Business Analysis & Documentation: Requirement Gathering, Functional Specifications, Process Flow Documentation, Operational Requirements Documentation, Workflow Optimization, Business Process Analysis, User Acceptance Testing (UAT), Reporting & Documentation, Stakeholder Communication

Data Analytics & Reporting: SQL, Python, Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Reporting Metrics, Data Transformation

Visualization & Dashboards: Power BI, Tableau, Data Visualization, Reporting Dashboards, Business Reporting

Systems & Operations: ETL Pipelines, Relational Databases, Process Automation, API Integration, Operational Support, Workflow Design

AI & Analytical Systems: Machine Learning, NLP, BERT, LLM Applications, Clustering, Decision Intelligence Systems, Analytical Workflows

Tools

Git, Microsoft Excel, Streamlit, Fast API, AWS (Basic), Version Control

PROJECT EXPERIENCE

NovaMind – AI Decision Intelligence Platform

- Developed an AI-driven analytical system integrating NLP workflows and structured decision-support pipelines
- Designed modular workflows for data processing, reporting, and operational analysis
- Built real-time analytical interfaces supporting structured business insights and decision workflows
- Improved efficiency and consistency of multi-step analytical processes across testing scenarios

Rationale Agent – AI Incident Intelligence System

- Developed AI-assisted operational analysis workflows for incident investigation and root-cause reasoning
- Implemented structured analytical pipelines for issue tracking, evidence extraction, and reporting
- Supported operational troubleshooting through modular reasoning and reporting systems

Historacle AI – Historical Intelligence Dashboard

- Built an interactive analytics dashboard for organizing and visualizing structured historical data
- Developed reporting workflows and analytical interfaces for data exploration and insights generation
- Designed user-focused dashboard views supporting data interpretation and analysis

Formula 1 Race Strategy Analysis using Clustering

- Applied clustering techniques to identify race strategy patterns and performance trends from structured datasets
- Performed preprocessing, feature engineering, and analytical evaluation of race-related variables
- Generated reporting insights and dashboards supporting strategic decision-making workflows

Twitter Sentiment Analysis using BERT

- Developed NLP-based sentiment analysis workflows for structured text classification and reporting
- Performed data preprocessing, tokenization, embedding generation, and evaluation analysis
- Built dashboard outputs and reporting workflows to visualize sentiment trends and analytical insights

Netflix Recommendation System Optimization

- Conducted exploratory data analysis, forecasting, and clustering to analyze recommendation and engagement patterns
- Developed analytical workflows supporting recommendation optimization and business insight generation
- Built dashboard-style reporting outputs for content and engagement analysis

PROFESSIONAL EXPERIENCE

Quality Assurance Intern

Laurus Labs, Visakhapatnam, India | Jan 2022 – Jun 2022

- Performed batch record review, data validation, and process verification within operational workflows
- Assisted in documentation, reporting, and compliance-focused process analysis
- Identified inconsistencies and supported corrective and preventive action processes (CAPA)
- Collaborated with teams to maintain documentation accuracy and operational standards

EDUCATION

Stevens Institute of Technology

Master's in Business Analytics & Artificial Intelligence | May 2026
GPA: 3.51

GITAM Deemed University

Bachelor's in Pharmacy
