

SAI VENKATA NAGENDRA ABHAY RAJ GURRAM

Jersey City, NJ | 815-618-1777 | abhayrajgurram13@gmail.com
linkedin.com/in/abhaygurram | github.com/Abhayraj1307

PROFESSIONAL SUMMARY

Data Science and Business Analytics graduate student specializing in statistical analysis, marketing analytics, predictive modeling, and large-scale data analysis. Experienced in Python and SQL for data wrangling, ad-hoc analysis, and building production-ready analytical solutions. Proven ability to translate complex datasets into actionable business insights.

EDUCATION

Stevens Institute of Technology, Hoboken, NJ — M.S. Business Analytics & Artificial Intelligence (Expected May 2026) Relevant Coursework: Machine Learning, Experimental Design, Multivariate Analysis, Optimization, Web Mining, Data Management

TECHNICAL SKILLS

Programming: Python, SQL, R
Data Analysis: Pandas, NumPy, Statistical Analysis, Hypothesis Testing, A/B Testing
Machine Learning: Regression, Classification, Clustering, XGBoost, LightGBM
NLP & AI: BERT, Transformers, RAG pipelines, spaCy
Visualization: Tableau, Power BI, Streamlit

PROJECT EXPERIENCE

- 1 F1 Race Strategy & Performance Analytics — Built gradient-boosted models (~82% validation accuracy) and Tableau dashboards for data-driven insights.
- 2 Twitter Sentiment & Customer Insight Analysis (BERT + RAG) — Improved accuracy by ~12% and deployed real-time Streamlit monitoring app.
- 3 LLM-Based Incident Intelligence — Automated root-cause classification and improved analysis efficiency for operational teams.

INDUSTRY EXPERIENCE

Laurus Labs Ltd. — Quality Assurance Intern (Jan 2022 – June 2022)

- Analyzed large-scale production and stability datasets using SQL and Python
- Performed data cleaning, anomaly detection, and statistical validation
- Conducted ad-hoc exploratory analysis to identify process inconsistencies
- Standardized QA documentation workflows improving audit readiness
