PROFESSIONAL SUMMARY

Business Analytics and Artificial Intelligence graduate with experience in business analysis, data analysis, process optimization, dashboard development, and AI-enabled analytical systems. Skilled in requirement gathering, functional documentation, workflow analysis, reporting dashboards, SQL, Python, Excel, Tableau, Power BI, AWS fundamentals, and analytical automation. Strong ability to collaborate with cross-functional teams, conduct benchmarking analysis, and deliver data-driven business insights.

CORE SKILLS

Business Analysis: Requirement Gathering, Functional Specifications, Technical Documentation, SOP Documentation, Process Mapping, Workflow Optimization, Stakeholder Communication, Cross-Functional Collaboration, Product Research, Benchmarking Analysis

Data Analytics: SQL, Python, Microsoft Excel, Pandas, NumPy, Data Cleaning, Data Transformation, EDA, Statistical Analysis, Trend Analysis, KPI Reporting, Data Validation

BI & Visualization: Power BI, Tableau, Amazon QuickSight, Dashboard Development, Data Visualization, Analytical Reporting, Business Intelligence Reporting

Systems & Cloud: AWS Fundamentals, AWS S3, AWS EC2, AWS SageMaker Exposure, ETL Pipelines, Relational Databases, Data Warehousing Concepts, API Integration, Git

AI & Analytics: Machine Learning, NLP, Predictive Analytics, Clustering, Decision Intelligence Systems, Analytical Workflow Automation

PROJECT EXPERIENCE

NovaMind – AI Decision Intelligence Platform

- Developed AI-enabled decision support platform integrating structured workflows, reporting pipelines, and operational analysis systems.
- Organized and transformed structured data inputs to support dashboard reporting, workflow automation, and business insight generation.
- Designed modular analytical workflows and reporting interfaces to improve operational visibility and reporting efficiency.

Rationale Agent – AI Incident Intelligence System

- Built operational analysis workflows for incident investigation, issue tracking, and root-cause reporting.
- Developed structured analytical pipelines supporting troubleshooting, evidence extraction, and reporting automation.
- Created workflow documentation and modular reporting systems to improve analytical consistency.

Formula 1 Strategy Analysis using Clustering

- Applied clustering and analytical modeling to identify strategy patterns and performance trends from structured datasets.
- Conducted preprocessing, SQL-based analysis, feature engineering, and trend evaluation using Python workflows.
- Generated actionable insights and dashboard outputs supporting performance benchmarking and decision-making.

Netflix Recommendation System Optimization

- Conducted EDA, forecasting, clustering, and reporting analysis to identify recommendation and engagement patterns.
- Built dashboard workflows and analytical reporting systems supporting business recommendations.

Retail Clothing Decision Support System

- Developed Excel-based decision support system for inventory optimization and pricing analysis workflows.

- Created structured reporting models and scenario analysis to support business operations and planning.

PROFESSIONAL EXPERIENCE

Quality Assurance Intern

Jan 2022 – Jun 2022

Laurus Labs, Visakhapatnam, India

- Performed operational reporting, process verification, documentation review, and data validation within compliance-driven workflows.
- Analyzed structured operational datasets to identify inconsistencies and support corrective action initiatives.
- Collaborated with cross-functional teams to maintain process consistency, documentation standards, and workflow efficiency.

EDUCATION

Stevens Institute of Technology

May 2026

Master's in Business Analytics & Artificial Intelligence | GPA: 3.51

GITAM Deemed University

Bachelor's in Pharmacy

CERTIFICATIONS & ADDITIONAL INFORMATION

Apple Search Ads Certification | Bank of America Investment Banking Simulation

Publication: UV Analysis of Ritonavir | Languages: English, Telugu
